CONNECTCLIP NOW AVAILABLE!

Transform Your Hearing Aids Into A Wireless Stereo Headset

Get the sound from any modern smartphone, tablet or computer directly into both of your ears with ConnectClip. It uses Bluetooth low energy to connect your hearing aids to your electronic devices and is also a microphone for capturing your speech. This makes your hearing aids into a wireless headset with all the benefits that come with the hands-free experience.

The high-quality audio capability lets you stream music from any of your devices straight into your ears. The sound is in stereo, which gives a richer sound where you can hear more details, for a quality experience that is less strenuous to listen to.

The ConnectClip also functions as a remote microphone, which means you can give it to someone who is speaking and then hear their voice clearly and directly in your hearing aids.

WHY ARE RECHARGEABLE HEARING AIDS A GOOD IDEA?

More reliable – Simply place the hearing aids in the charger at night and wake up to full-power hearing aids each morning

More convenient – No need to replace batteries every few days, or open the battery drawer

More efficient – Save the time and environmental impact of buying hundreds of batteries per year

AWARD-WINNING OTICON OPN™!

Opn has captured an impressive line-up of prestigious international awards this year. In awards competitions that include cutting-edge products from around the world, judging panels consistently single out Opn for groundbreaking innovation, outstanding product quality and human-centered design.

NEW RESULTS PROVE THE PERFORMANCE OF OPN

Since the introduction of Oticon Opn™ we have experienced outstanding feedback from both hearing care professionals and hearing aid users. Now, we have new groundbreaking data that confirms how Oticon Opn represents a significant paradigm shift in hearing care. This highlights how Oticon Opn marks a breakthrough in solving some of the biggest challenges faced by people with hearing loss – speech understanding in noise and the handling of multiple speakers – with less effort.

- Offers discreet access to a telecoil
- Gives advanced, wireless connectivity to your favourite devices

DID YOU KNOW?

Horror movie soundtracks sometimes include infrasound, which is sound below the range of human hearing. Even though we can't hear it, we can still feel it and infrasound has been shown to induce anxiety, heart palpitations, and shivering.

SPINACH DIP IN BREAD BOWL

The winter months are times of social gatherings with family and friends. Be the hit of the party with this easy and tasty spinach dip.

WHAT YOU NEED:

- 1 cup** mayonnaise
- 2 cups** sour cream
- 1 package** of dry Leek Soup mix
- 1 package** of frozen spinach, thawed and drained.
- 1 loaf** fresh pumpernickel bread

DIRECTIONS:

In a medium bowl, mix together mayonnaise, sour cream, leek soup mix and spinach. Chill in the refrigerator for several hours. Remove the top and the inside of the bread loaf to form a bowl. Fill with the spinach dip. Tear the removed bread into smaller pieces for dipping.
